

# TELEFONICA INVESTIGACIÓN Y DESARROLLO

Telefónica I+D is located in the North-East of Madrid, very close to the international airport of Barajas (approximately 10 km. far) in the crossing of Avenida de América (roadway to Barcelona) with the street Arturo Soria, in a modern and easily accessible area, where many other commercial and business offices are as well situated.

Our address is: C/ Emilio Vargas 6, 28043 Madrid

## TRANSPORT

The cost of a taxi trip from Barajas airport (Terminal 4) to Telefónica I+D may be approximately 20/25 €, including the supplementary price for a journey from the airport. The official fares establish as obligatory and free the transport of cases.

There are two bus lines, number 200, between Barajas airport (T1, T2, T3) and Avenida de América (an important avenue where there is access to different buses, subway and railway), and number 204 between Barajas airport (T4) and Avenida de América.

Both buses stop only twice (Canillejas and Avenida de América/Agastia), and the longest trip lasts about 20 minutes. The second stop is very close to Telefónica I+D building. Luggage is permitted.

There is also subway connection (line 8) from the airport (all terminals) to Nuevos Ministerios station (in Madrid financial centre). Trip duration is about 20 minutes from T4.

To access our headquarters from the city, the main public transports are:

### Metro

	<b>Línea 4:</b> Pinar de Chamartín - Argüelles (Arturo Soria o Avda. de la Paz).
	<b>Línea 6:</b> Circular (Avenida de América)
	<b>Línea 7:</b> Hospital del Henares - Pitis (Bº de la Concepción)
	<b>Línea 9:</b> Arganda del Rey - Herrera Oria (Avenida de América)
